Rebellion in Mexico Serves to Unsettle Stocks and Prices Remain Sluggish.

BY I. A. PLEMING.

At a meeting of the directors of the Washington Gaslight Company yesterday he same officers were elected as those erving last year. This was easily fore-lindowed by the elections to the directorate last week. While certain rumors used it appear that the directors were not in ayounthy with the management of the company, whatever differences of prinon may have exhaud were all innoched out pesterday, and the ticket of re-election went through without a litch.

is understood that the main differs between the Washington Gastight pany and the Georgetown Company he been patched up, and that the linington company will furnish gas to concern over Rock Creek at a nomfasure, as in the past. Whether this obviate the necessity for a new I for the Georgetown company is not unreed, but it is quite evident, that ity in that direction was a potent or in bringing about the truce her the companies.

District Electric Railway Com mission Makes Annual Report.

TRAFFIC TOO HEAVY

Recommended by Board-Tells of Recent Improvements.

Need of additional car lines to relieve the traffic congestion in the northwest, and the desirability of legislation empowering the Commission to regulate the insuance of transfers and better provision for the proper ventilation of street cars, we're points especially emphasized in the fifth annual report of the District Electric Railway Commission to the Interstate Commerce Commission, reserriday made public. This report, compiled by Chairman Join II. Marble and Commissioners Henry L. West and Thomas II. Smith, amountains the improvements made in the District street car service during the past year, and points out other and the complaints were received during the year of the relief of the relief that the hundred and six complaints were received during the year, of which unintricates Commission or by the Interstates Commerce Commission upon recommendation. Importers Getting Refunds on Philippine Hemp.

The House yesterday passed a resolution introduced by Representative Hardwick of Georgia, calling on the President for information regarding the exemption of American importers of Manila hemp from payment of the export tax thereon, and requesting the President to advise the House what amounts of money hage been refunded to such importers by vilture of said exemption smee the act of Congress of March 8, 198, known as the Philippine tariff act, up to the present time, and to whom said amounts have been refunded.

The Hardwick resolution is based on an attack on the Cordage Trust made by Judge James H. Blomt. He charges that the International Harvester Company and other American importers of Manila hemp have in the last ten years collected more than \$4,00,000 in refunds of export taxes on Manila hemp under a refund or rebate system, and that these refunds represent in effect a free gift or subsidy to American importars of Manila hemp.

The object of the resolution is to find out heat who the other members of the Cordage Trust are besides the International Harvester Company, and how much of them gets.
